### **NSL PROUD TO LAUNCH ITS' NEW WEBSITE!** *March 1, 2013*

Niagara Supportive Living, the leading name in Supportive Housing, is pleased to introduce its' newly designed website which launched today!

Our web address will remain the same as always and can be found at [www.supportiveliving.ca](http://www.supportiveliving.ca)

Aside from a whole new look, our team has added new features and options to keep NSL clients, residents and the general public informed and up-to-date with NSL.

For example, our application process just became easier with a new savable .pdf format application which can be emailed for your convenience. We have also included floor plans for our residences on the individual homes pages so clients and their social workers can have an idea in advance what living arrangements will be.

Our donation process as well as applying for a position with NSL is now streamlined.

Our Contact page lists our administrative staff with direct lines and email addresses, making it faster to communicate with us! Industry professionals will have their own portal on our web site to make communication faster regarding their clients and patients.

Social media will now keep you in-touch and informed about news and events at NSL. Facebook, Twitter and Linked-In have been added to our site.

Just as our motto, *"Where Support and Independence go hand-in-hand"*, our success as a whole goes hand-in-hand with your satisfaction and feedback. We hope you enjoy exploring our new website and we welcome your feedback!

Thank you to all for your continued cooperation & support!
